**CONSENT FOR ACCESS TO PROPERTY**

**Name:** Todd C. Hennis, as owner and representative of properties held by San Juan Corp., and Salem Minerals.

**Location of Properties:** Todd C. Hennis/San Juan Corp./Salem Minerals' lands on or near the Gladstone area, known as the Harrison Mill Site, Anglo Saxon Lode; the claims near and including the Upper Gold King 7 Level mine and the Success Placer, Sampson MS; and claims near and including the Mogul and Grand Mogul mines (the Properties).

I consent to officers, employees, and authorized representatives of the United States Environmental Protection Agency (EPA), Bureau of Land Management/US Department of Agriculture (BLM/USDA-FS, and State of Colorado, and their designees (contractors), and Colorado Division of Reclamation, Mining, and Safety (DRMS) entering and having access to the Properties for the purposes below:

1. Conducting field inspections and investigations, and staging equipment to evaluate the mine waste rock dumps, adit discharges and seepage, and the associated impacted lands.
2. The drilling of holes and installing monitoring wells and other actions related to the investigation of surface or subsurface contamination in/on the waste dumps.
3. Sampling and monitoring water, soil, and mine waste material from waste rock dumps and mine workings as necessary to evaluate releases of hazardous substances.

This consent for access is valid from May 23, 2011 until December 31, 2012.

I realize that these actions are undertaken pursuant to EPA's response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (Superfund), as amended, 42 U.S.C. §§ 9601 *et seq.*

ACCESS PERMISSION

Todd C. Hennis, owner of the Anglo Saxon Lode MS 14875 and Harrison Millsite MS 14710, gives permission for BLM and its contractors and cooperators to cross or occupy these patented (private) lands near Cement Creek, in San Juan County, Colorado.

The access is for of a test of an electrocoagulation process to treat metal-laden mine effluent. Permission is for approximately two weeks during the period June 20 to July 8, 2013. BLM will notify Mr. Hennis of the exact dates within that period when plans are finalized. Todd C. Hennis is not liable for any accidents or accidental water discharges that happen during the test.

The lands will be left in substantially the same condition at the conclusion of the test as they were at the beginning.

  
Todd C. Hennis, landowner

**Subject:** Fw: Gold King Mine - Access and Waste Dump Grading

On Friday, August 8, 2014 9:54 AM, "Way, Steven" <[way.steven@epa.gov](mailto:way.steven@epa.gov)> wrote:

Todd,

As discussed, the top of the waste dump needs to have limited grading and a berm pushed up around the perimeter. This will serve two purposes 1) to provide a stormwater run-off control, and 2) a safety barrier at the edge of the waste dump while work is performed on the adit.

My suggestion is that the material nearest the hillside slope be used to create the berm, and that will also help direct run-off away from the waste dump perimeter, i.e., create a back-slope towards the hillside where appropriate. The berm elevation needs only be a maximum of approximately 18 inches but not less than 1 foot and a base width of approximately 2 to 3 foot. If your contractor has questions about this, we can discuss this further.

I have received the signed access agreement via fax, if you would please send us an original signature copy in the mail.

Thank you,  
Steve

**CONSENT FOR ACCESS TO PROPERTY**

**Name:** Todd Hennis, hereinafter referred to as the "Property Owner".

**Location of Property:** Herbert Placer, Anglo Saxon Claim, and Harrison Millsite, hereinafter jointly referred to as the "Property"

I hereby give my consent, through March 2016, to officers, employees, authorized representatives and contractors of the U.S. Environmental Protection Agency (EPA), U.S. Department of Interior - Bureau of Land Management (BLM), U.S. Department of Agriculture - Forest Service (FS), and the State of Colorado entering and having continued access to the above referenced property for the following purposes, hereinafter referred to as the "Work":

1. Conducting field inspections and investigations to evaluate the mine waste, adit discharges and related seepage, and the associated impacted lands;
2. Sampling and monitoring water, soil, and mine waste material from waste rock dumps, tailings impoundments, and mine workings or other areas as necessary to evaluate releases of hazardous substances;
3. Constructing, operating, and maintaining the mine water management system, including but not limited to pipelines, treatment/settling ponds and interim water treatment facility; and
4. Any other actions the EPA determines are necessary to address releases from the Gold King Mine.

EPA represents that the contractor performing the Work is required by EPA to obtain and, for the duration of the Work, maintain commercial general liability insurance (including coverage for bodily injury, death, property damage, and contractual liability).

By granting this access to and use of the Property for the Work, the Property Owner assumes no liability for any claims which may be asserted against the Property Owner by third parties solely as a result of the Work authorized under this Consent for Access.

EPA shall use best efforts to conduct the Work in a manner that will allow Property Owner to have reasonable access to the buildings and stored equipment, provided, however, that the Property Owner's access shall not interfere in any manner with EPA's ongoing Work.

I realize that these actions are undertaken pursuant to EPA's response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability

Act of 1980 (Superfund), as amended, 42 U.S.C. §§ 9601 et seq.
